 Translation Table

Attendees
 Darren
 Dan
 Andreas

=================================
Document Status
=================================

- The document has been sent to GGF.

- Andreas will be working on cleaning things up and adding more to the introduction and Fred has some things to add.

- Darren will be adding XML and xsd information to the document for GGF11.

- Andreas to add information on how we plan to integrate with other groups in GGF. And what areas need to be expanded.

=================================
Reference Implementations (Goal GGF12) Preliminary implemenatations
=================================

Darren - gridMatrix (LSF, SGE, Condor implementation)
Dan - SGE or DRMAA
Chris Smith - LSF ???

=================================
XML Schema
=================================

Use the Usage Record Groups Constructs where applicable.
JSDL is Timeless. Start time and other timing information should be handle by something else.
